SafeHands® - The Best Defense Against Germs

Problem:

Employees are more likely to skip sanitizing because alcohol based products crack and irritate their hands thus leading to an elevated risk of cross contamination by germs remaining trapped in the cracks of the hands.

Solution:

SafeHands® proprietary Alcohol Free formula kills germs while leaving the hands smooth and non-irritated. Employees will sanitize throughout the day therefore substantially diminishing the risk of cross contamination.

Alcohol-Free Instant Hand Sanitizer Foamer Line
